Concert Announces Its Participation at AFCEA Army IT Day Event

DULLES, VA, February 3, 2015– Concert Technologies, the leader in technology rollouts and a prime contractor on the GSA Connections II contract, will exhibit at the AFCEA Army IT Day held February 4 at the Sheraton Tysons Hotel in Vienna, VA. Concert Technologies will take part in the small business networking session to discuss federal government technology infrastructure capabilities as well as US Army technology requirements.

Representatives from Concert Technologies will also discuss opportunities for the US Army under the Network Services 2020 Enterprise Infrastructure Solutions (NS2020 EIS) initiative, currently released by GSA as an RFI. The NS2020 EIS includes the requirements for the Networx successor contracts with improvements to address the comprehensive range of requirements for government agency telecommunications infrastructure through 2028.

"As a prime contractor on the GSA Connections II contract, and major subcontractor on FTS 2000, 2001 and Networx, Concert Technologies has over two decades of experience to assist the US Army with the transition to the Network of 2020 among other network modernization projects in Army installations," said Dennis Mazaris, President and CEO of Concert Technologies. "As an industry partner, Concert Technologies looks forward to educating AFCEA Army IT Day attendees on the telecommunications and networking opportunities available to the US Army under the GSA Connections II contract and providing valuable infrastructure information on transiting from Netwox to NS 2020."

AFCEA NOVA's 14th Annual Army IT Day is the premier event to provide government and industry professionals with a better understanding of US Army IT requirements and applications. Topics covered include:

- Army CIO G6 Priorities and Focus Areas
- The Army's Future Force
- Status of Network Modernization in Army Installations
- PEO EIS and PEO C3T Procurement Schedule
- The vision for Network 2025 and beyond
- Cyber Initiatives
- Break out sessions on Small Business opportunities (Tables will be available for both large and small businesses to promote their respective capabilities and requirements)

About Concert Technologies

Founded in 1995, Concert Technologies is a privately-held technology rollout company based in Dulles, VA. Concert customers receive high-quality rollouts through the application of the industry's only system of project management methodologies.
